Better reflection effect in water and greatly improved fish luring effect

High reflective coating

The effect of luring fish is stronger

Product Description

90g Bass Pencil Bait Pencil Wooden Lure Stick Bait Trolling Lure Floating Hard Baits

Features of a Bass Pencil Bait:

Long, Slim Profile: Pencil baits have a long, slender, and cylindrical body shape, resembling a pencil or cigar. This design allows them to create a zigzag or walk-the-dog action when retrieved.

Topwater Lure: Pencil baits are topwater lures, meaning they are intended to stay on the surface of the water. They create surface commotion and splashes that can attract fish from below.

Lipless Design: Pencil baits are typically lipless, meaning they lack a diving lip or bill. This allows them to be retrieved near the water's surface without diving beneath it.

Weighted Rear: Most pencil baits have a weighted rear section or tail, which helps them sit upright in the water and provides stability during retrieval.

Hooks: Pencil baits come equipped with treble hooks, often dressed with feather or silicone skirts to enhance their appeal and hooking potential.

Color and Finish: These lures are available in various colors and finishes to mimic different baitfish species and attract bass under different water and light conditions.
